# Down-regulated GO

response to nutrient
lipid metabolic process
response to glucocorticoid

-Log₁₀(p-value)

response to wounding
cellular response to glucose stimulus
cholesterol homeostasis
cholesterol efflux
response to nutrient

-Log₁₀(p-value)

oxidation−reduction process
fatty acid metabolic process
steroid metabolic process
triglyceride metabolic process
cholesterol metabolic process
response to glucocorticoid

-Log₁₀(p-value)

fatty acid metabolic process
response to glucocorticoid
cellular response to insulin stimulus
bile acid and bile salt transport
response to lipopolysaccharide

-Log₁₀(p-value)

transport
fatty acid alpha−oxidation
cellular triglyceride homeostasis
cholesterol homeostasis
intracellular receptor signaling pathway

-Log₁₀(p-value)
